

Business Resource Efficiency Checklist - Packaging optimisation 2 of 6

# Packaging optimisation by transport efficiency

	Investigate further	Implement now	
<b>Transport efficiency</b>			
Can the shape of the package be altered to improve case/palletisation/ transport efficiency (e.g. could the packs slot into each other so they stack more efficiently)?			
Can the pack dimensions be changed to improve pallet utilisation?			
Can the product be made and sold in a more concentrated form (i.e. reducing the water content) or could the packaging be optimised to provide refills?			
Are the delivery trays used to transport goods reusable/returnable?			
Are the vehicles fully loaded?			
Are the materials used in transport (e.g. drums, crates, pallets) as lightweight as possible?			
Are the transportation distances involved as short as possible?			
Are return vehicles trips being used to transport materials?
